

2022 Letter to the Shareholder, Annual Report, and Additional Information Reported Annually to the Shareholder

Item 5

April 24, 2023

Building Investment, Finance and Audit Committee

Report: BIFAC:2023-37

To: Building Investment, Finance and Audit Committee
("BIFAC")

From: President and Chief Executive Officer

Date: April 14, 2023

PURPOSE:

The purpose of this report is to seek the BIFAC's approval of the 2022 Letter to the Shareholder, Annual Report, and Additional Information Reported Annually to the Shareholder for Toronto Community Housing Corporation ("TCHC").

RECOMMENDATION:

It is recommended that BIFAC approve and recommend that the Board:

1. Approve the 2022 Letter to the Shareholder, Annual Report, and Additional Information Reported Annually to the Shareholder (Attachment 1 to this report);
2. Authorize the President and CEO (or designate) to forward the 2022 Annual Report and Letter to the Shareholder to the City of Toronto's City Manager; and
3. Authorize the President and CEO, or his designate, in consultation with the BIFAC Chair and the Board Chair, or their designates, to develop, on behalf of the Board, and submit to the City Clerk for information of

City Council's Executive Committee and City Council such additional information as is required to identify known and anticipated financial impacts and outlooks (current and future years), including any financial challenges, risks and key updates for TCHC, as identified in this report.

REASONS FOR RECOMMENDATIONS:

The draft 2022 Annual Report provides a public overview of TCHC's accomplishments and its progress in delivering its strategic priorities during the 2022 calendar year. It is TCHC's report to City Council, tenants, employees, stakeholders, and the public.

Together with the Letter to the Shareholder, the Additional Information Reported Annually to the Shareholder, and TCHC's audited financial statements, all information required to comply with TCHC's reporting requirements to its shareholder, the City of Toronto, is provided.

Pending the Board's approval, the President and CEO (or designate) will forward the 2022 Letter to the Shareholder, Annual Report, and Additional Information Reported Annually to the Shareholder to the City Manager. In previous years, the City Manager has requested that these items be brought before City Council as part of TCHC's Annual General Meeting, typically held during Executive Committee meeting, and then before City Council.

IMPLICATIONS AND RISKS:

TCHC's Letter to the Shareholder, Annual Report, and Additional Information Reported Annually to the Shareholder are the primary documents through which TCHC demonstrates full compliance with the Shareholder Direction and other reporting requirements approved by City Council. Regular and transparent reporting of performance against strategic priorities is also an important part of our commitment to public accountability. These documents are being provided in time to meet the City's requirement of reporting within 120 days of the end of the fiscal year.

New City of Toronto AGM Process

Following the preparation of this report, City staff have recommended that annual general meeting reports to Executive Committee and City Council include a comprehensive and complete Financial Impact section in order to inform Members of Council of all known and anticipated financial impacts and outlooks (current and future years), including any financial challenges,

risks and key updates for TCHC. The Financial Impact section is intended to address:

1. **Summary of operations for the 2022 fiscal year**, including any continued impacts of COVID-19 response and recovery on operations;
2. **Financial highlights**, including a summary of significant assets, liabilities, revenues and expenses and changes in material balances due to/from the City of Toronto or other related parties;
3. **Any known or anticipated impacts to the City's Budget or financial position**, such as updates pertaining to funding support, dividend payments, reserve fund contributions or withdrawals, initiatives or capital project delivery (current and future years);
4. **Any concerns with assets**, including with cash balances and flows, uncollectible receivables, impairment of tangible capital assets, and significant TCA additions or disposals (current and future years);
5. **Any liability concerns** and areas where significant estimates have been applied and any loan payment concerns or financial consequences (current and future years);
6. **Results of 2022 audit**, including the auditor's opinion, significant findings and/or recommendations and plans to address significant findings and/or recommendations; and
7. **The future outlook**, including any risks, forecasted challenges, impacts of previous/current year commitments on ongoing operations, and how the Corporation's overall outlook may affect the City's budget in 2024 and subsequent years.

Given the timing of this request, we have not yet had the opportunity to review the report, in its current form, in order to ensure that it addresses the above-noted matters as required. At the time of the submission, that review process is continuing. Should the review identify gaps in the report a supplementary report may be submitted to accompany the Board's consideration of this matter. Alternatively, it may be necessary, given the timelines for Council's consideration of this report, for the President and CEO

to develop this content, in consultation with the Board Chair, for submission to Council.

Dear Mr. Johnson,

Toronto Community Housing Corporation's 2022 Annual Report

We are pleased to submit the enclosed 2022 Annual Report and additional information reported annually to the shareholder for the Toronto Community Housing Corporation (TCHC). We have again created a digital Annual Report, which highlights our achievements in relation to our corporate goals and objectives. This letter to the Shareholder and its attachments fulfill all Shareholder and other City Council mandated reporting requirements, as outlined in the 2021 revisions to the Shareholder Direction from the City of Toronto and various resolutions adopted by City Council.

In 2022, TCHC focused on business recovery and fully resuming business operations gradually as pandemic restrictions lifted. Tenant service hubs were opened across the city, providing convenient access for tenants to obtain information, receive help completing forms and processes, and submit service requests and complaints. TCHC also successfully transferred the day-to-day operations of the 83 seniors-dedicated buildings to the new Toronto Seniors Housing Corporation on June 1, 2022, while minimizing impact on tenants.

In May, the City's Chief Building Official determined that a building in the Swansea Mews community was uninhabitable due to a ceiling collapse, and staff and support services were rapidly redeployed to effectively manage the emergency and relocate impacted tenants. The few households still awaiting permanent units will join the Regent Park relocation process in early 2023.

If you have questions about the contents of this letter or the 2022 Annual Report, please contact Jag Sharma at (416) 981-4088.

Opening doors for the future

Celebrating 20 years

Annual Report 2022

Opening doors for the future

In 2022, Toronto Community Housing celebrated 20 years building and creating homes and communities across the city. From day one, we understood our role in making positive change happen in our communities, it is a part of our DNA.

In our 2022 Annual Report, we are pleased to share a view into the communities we have built, the successes of individual tenants and the achievements that we celebrated this past year.

Message from our Chair

“At TCHC, we are responsible for a very large portfolio of public assets, but our work is and has always been about people.”

Tim Murphy, Chair,
Board of Directors

In 2022, Toronto Community Housing faced changes and challenges, but we remained as committed as ever to tenant service and building communities where people are proud to live and work

As the COVID-19 pandemic’s effects waned, the Swansea Mews crisis challenged TCHC staff to respond rapidly, create innovative solutions and provide close care and support to the households affected by an unforeseen construction defect. The TCHC team initiated a strong and immediate response, ensuring that all households were safely relocated by the end of the year.

Together, TCHC and the Board oversaw the completion of two critically important Tenants First deliverables: the launch of the Toronto Seniors Housing Corporation (TSHC) and the transition of the Scattered Housing Portfolio to two community land trusts. The completion of these two projects was made possible by the hardworking TCHC staff, the City of Toronto and a team of local partners and agencies that play a role in our communities. I extend my thanks and congratulations to them on a job well done.

Our Board welcomed three new directors in 2022, including Mohammed Haque, a resourceful promoter and defender of social justice and human rights, who will serve as the Board’s third Tenant Director. Councillors Lily Cheng and Vincent Crisanti were appointed to the Board in November 2022. We are grateful to two exiting board members, Deputy Mayor Ana Bailão and Councillor Frances Nunziata, both of whom have been longtime housing advocates in Toronto.

We celebrated the 20th anniversary of TCHC this year, an important milestone for an organization that influences communities all across this city.

At TCHC, we are responsible for a very large portfolio of public assets, but our work is and has always been about people. TCHC’s employees are on the frontline of that work. On behalf of the Board, I want to thank all TCHC employees for another year of tireless effort. Every day you come to work, you are helping to make a difference for our tenants, and the Board is deeply appreciative of that.

The next year holds new promise as TCHC continues its transformation and I am excited to see what the future holds.

Tim Murphy (he/him)

Chair, Board of Directors

Message from our President and CEO

“All across the organization people are pushing us towards an exciting new future where TCHC is a transformed organization.”

Jag Sharma, President
and Chief Executive Officer

In 2022 we celebrated TCHC’s 20th anniversary, ever mindful of our role providing homes and supports to those that need them the most. TCHC staff worked hard to meet the needs of tenants and deliver on a number of important projects. I am inspired by their care and compassion for the work that they do.

I am tremendously proud of the hard work and dedication that TCHC staff committed to the Tenants First plan, because the results speak for themselves. In 2022, TCHC completed two major Tenants First deliverables: the launch of the Toronto Seniors Housing Corporation and the transfer of the Scattered Housing portfolio to Circle Community LandTrust and Neighbourhood

Land Trust. As Canada’s largest housing provider, we are stewards of a very large public investment, but our work is and has always been about people, much more than about bricks and mortar. Our 20th anniversary celebrations brought to life a vivid history of the lives lived in our communities and the bright potential that awaits us in the next twenty years.

While we have been enjoying milestone achievements, TCHC has also had to pivot rapidly to manage unforeseen challenges. The Swansea Mews community demanded the organization’s full attention when their lives were turned upside down. The agility, compassion and drive that TCHC staff displayed in their response showed me just how far our staff will go to support tenants in need. There is more work to be done, but I am confident in our ability to move the Swansea Mews community forward.

TCHC is continuing in its journey to address the role of race in public housing and the impact that systemic anti-Black racism has on our tenants and staff.

The Centre for the Advancement of the Interests of Black People has continued to

grow, establishing itself as a foundational element of TCHC's commitment to our Confronting Anti-Black Racism (CABR) strategy. The CABR strategy captures the changes needed to systematically address anti-Black racism across TCHC, both as an employer and as a social housing provider, and measure success in making that change. This work requires constant focus and a regular renewal of our plan to make sure that we are on track to make real change.

Transformation is not limited to the social fabric of TCHC. The organization has been engaged in a successful program of climate retrofitting across the portfolio. Our current plan is to meet the Canada Mortgage and Housing Corporation (CMHC) target of a 25 per cent reduction in energy consumption from 2018 to 2028. In 2022, TCHC had a downward trend in both electricity and gas consumption, which shows us that we are effective in our plans. We will not stop at 25 per cent, though, because TCHC is committed to supporting the City of Toronto's TransformTO Net Zero strategy.

As you can see, the momentum is on our side. All across the organization people are pushing us towards an exciting new future where TCHC is a transformed organization, equipped with modern technology, a refocused portfolio and a new strategy. We will continue building employee pride, tenant confidence and the trust of our partners and City shareholder. We will continue delivering positive outcomes for the people who call TCHC home.

Tenants First Progress

We took part in a significant Tenants First announcement alongside Minister Ahmed Hussen.

The transition of 760 units to the non-profit sector will protect them as social housing in perpetuity, helping to keep Toronto affordable. It will also allow us to continue focusing on our vision of vibrant communities where people are proud to live and work.

Building the future

In 2022, TCHC continued on our core mission to provide clean, safe, well-maintained and affordable homes for our tenants. Through our continued collaboration and engagement with tenants, we are building our collective future and fostering the creation of communities where people can live and thrive. This next section provides updates about TCHC’s revitalization projects, capital projects and accessibility program.

Maintaining TCHC’s portfolio

The Empringham basketball court being replaced.

Facilities Management (FM) has successfully completed 100 per cent of TCHC’s planned capital work in 2022. This achievement required the coordination and delivery of hundreds of planned projects that proceeded on schedule despite ongoing challenges with supply chain and construction following the pandemic. The work of this division is critical to maintaining TCHC’s portfolio of buildings and homes in a state of good repair.

In 2022, TCHC delivered on our full \$350 million capital plan. Below are some of the highlights of this achievement.

- \$1.38M/day in completed capital work
- 1,400 projects
- 25,000 work orders

Highlights

1400 planned jobs

52 access control and camera installations

31 elevator replacements

105 landscape projects

202 envelope, roofing, window and structural projects

9 common area accessibility upgrades

295 in-suite accessibility upgrades

170 electrical, mechanical and plumbing projects

The Planned Project Services team engages tenants in our East Region about upcoming repairs to their building

The Retrofit at 5 Needle Firway included recladding, envelope restoration, new windows, balcony guards, electrical and mechanical system upgrades and interior common space renovations

In 2022, TCHC continued to lead the housing sector in modernizing our buildings through green initiatives and energy retrofits. Each green retrofit contributes to the City's goal of achieving net-zero emissions by 2040, starting with our 25% CMHC reduction target by 2028. In addition to greater energy efficiency, each retrofit project will modernize

buildings and add to tenant comfort in their homes. The Bathurst-Eglinton project is featured in a Toronto Star article and will provide a model for the green retrofit for more than 21,000 buildings and almost 59,000 units. TCHC has broken its own record in capital incentive contributions from our utility partners with over \$7.3M in 2022. We received over \$2M from Enbridge Gas and over \$5M in electricity incentives.

Planned Project Services (PPS) supports TCHC's regional teams to engage tenants at locations where large scale capital repairs have been planned. This team engages tenants to build open lines of communication and feedback about projects, timelines, disruptions and benefits. The team is currently supporting over 125 projects across TCHC's three regions and the Toronto Seniors Housing Corporation.

TCHC’s accessibility program continued to make an impact on the lives of tenants living with disabilities. In 2022, TCHC completed 304 common area and in-suite accessibility projects.

Leadership in accessibility

Cathy Birch, Chair of our tenant-led Responsible Personal Accessibility in Toronto Housing (R-PATH) committee, received the 2022 David C. Onley Award for Leadership in Accessibility.

2022 Update: The Responsible Personal Accessibility in Toronto Housing (R-PATH) Committee

2022 was a very productive year for The Responsible Personal Accessibility in Toronto Housing (R-PATH) Committee, a tenant-led committee who advocate for persons with disabilities. Here is the list of R-PATH'S journey through 2022.

- R-PATH continued to scope, review drawings, participate in community meetings for Planned Accessibility projects, and monitor all accessibility projects.
- R-PATH worked with Facilities Management (FM) and Development to begin the update to Toronto Community Housing Accessibility Build Standards. The plan is to deep dive investigate, update, and establish old and new standards to be published in 2024.
- R-PATH continued to work with management on updating the Agency Agreements and Use of Space Agreements with Agency providers.
- R-PATH authored Accessibility is For You, Volume 2, along with a Tip Sheet for Tenants considering having their unit modified, and a tip sheet specific to

tenants who have Independent Living Services. These materials are written in plain language to educate tenants on programs, explain processes and service requirements, and manage tenant concerns consistently across the whole portfolio. R-PATH worked extensively with Communications to create packages of these materials that are available at all hubs.

- R-PATH continued to work with Communications about accessibility content for the website and all social media platforms used by TCHC.
- R-PATH partnered with Communications to create and deliver a [short video](#) on some of the most common features of the Toronto Community Housing Accessibility Build Standards.
- R-PATH also partnered with Communications to deliver an [animated video](#) of “The 7 Most Common Questions” that tenants ask about getting their unit modified.
- R-PATH submitted our annual recommendation for the 2023 Capital Budget.

- R-PATH delivered Accessibility for Ontarians with Disabilities Act (2005) training to all Tenant Engagement Community Services Coordinators. Shortly after training, R-PATH monitored large engagement forums and reported back to TCHC for improvements needed particular to external venues.
- R-PATH closed the year by celebrating R-PATH Committee Chair, Cathy Birch, being awarded the David C. Onley Award for Leadership in Accessibility from the Province of Ontario.
- The R-PATH Committee is looking forward to 2023!

Revitalization community highlights

Progress continued at Toronto Community Housing's Regent Park revitalization, one of the largest urban revitalizations of its kind in the world. Daniels began construction on Phase 3 (Block 16 North).

- TCHC and Tridel submitted a [rezoning application](#) for the final phases of the project, Phases 4 and 5, requesting an increase to the density of the development.
- TCHC formed the [Community Benefits Oversight Working Group](#) (CBOWG), a diverse, 20-member advisory group of local residents and experts that will support a one-year community engagement process to inform the distribution of \$26.8 million in community benefits made possible through the Regent Park revitalization.

Through the power of partnerships made possible through revitalization, TCHC continued to engage tenants across all of its revitalization sites through diverse social and economic initiatives aimed at addressing local resident challenges and supporting positive social change. In 2022, this included:

- offering continued weekly safety and community engagement summer workshops to youth in our **Lawrence Heights and Neptune communities**, through our 37 Kids Program;

- connecting over 400 households in our **250 Davenport community** to social, mental health, and food security services through TCHC leveraged partnerships;
- engaging 41 tenants from our **Don Summerville** community in pre-employment activities, resulting in 27 tenants securing training, employment, or scholarships; and,
- awarding scholarships to help student tenants of all ages pursue post-secondary education and training, including nine student tenants in our **Lawrence Heights** community. Since 2013, TCHC awarded 154 scholarships valued at \$533,000 to student tenants of all ages in our Lawrence Heights and Neptune communities through The Limitless Heights Scholarship program (2013-2021) and the Revite NERDS Scholarship (2021-2022) thanks to funding from our partner, Heights Development (Context and Metropia).

Leading the way

Supporting youth wellbeing in Rivertowne

Suzette Saunders has been a tenant leader in Rivertowne for over 15 years, moving in just after the revitalization of the community was completed. In this time, Suzette has been a fixture in the community, organizing events, providing programs and care for youth and children, and advocating for the needs of her fellow tenants and neighbours. Read her story by scanning the QR code.

Tenant-focused service and engagement

In 2022, TCHC continued to deliver on a number of dedicated tenant initiatives to improve the delivery of customized services and responses across our communities. TCHC's tenant engagement system continued to establish tenant leadership and specific action plans through our first post-pandemic regional events. The Toronto Seniors Housing Corporation was established through a successful transition mid-year, creating a new corporation that will deliver services customized to seniors, supporting them to age-in-place. TCHC continued to roll out additional tenant service hubs in 2022, bringing services closer to all our communities.

Establishing tenant leadership

- In January 2022, TCHC launched a series of by-elections to fill vacant leadership positions in 120 TCHC communities. Almost two thousand tenants were directly engaged through flyers, emails, phone calls, door knocking, and more. Thirty-six meetings were organized to give tenants information about the election process. A total of 36 nominations were received, out of which 26 were confirmed.
- As a result, we filled 25 Community Representatives positions and 20 tenants signed up to be part of their Building/Townhouse Committee.
- In total, 1,084 tenant leaders are currently participating in the new Tenant Engagement System.

Implementing Service Quality Indicators at the Hub level

- As part of their roles, tenant leaders fill out Service Quality Indicator (SQI) surveys where they provide feedback on building cleanliness, maintenance, tenant communications, community safety, tenant support services, and tenant engagement.
- One hundred and fifty-six tenants participated in the SQI survey process, with a response rate of 93 per cent. The completion rate was 87 per cent.

Establishing tenant leadership at the regional level

- In August, we organized the first post-pandemic in-person Tenant Community Actions Tables (TCAT) meetings. One TCAT was held in each of the three Operations regions at TCHC (Central, West, and East). The meetings provided opportunities for tenant leaders to provide feedback about improving and enhancing services in their communities. One hundred and fifty-eight Community Representatives attended the meetings.
- As a result of the feedback, engagement staff collaborated with staff from relevant divisions to review issues raised by tenants. They worked with the Strategic Communications team to document the feedback and any resulting action plans. This was turned into a report given to tenant leaders at the next set of meetings.
- End-of-Year Regional Forums were held in November and December. A total of 372 tenant leaders pre-registered and 293 tenant leaders (Community Representatives and Building Committee Members) attended the forums while 24 community partners participated as vendors.

Tenant representatives and leaders attended our Central Regional Forums

Tenant capacity building

- Two orientation sessions (regional and city-wide) were organized for elected tenant leaders in March 2022. The purpose of the orientation was to provide information and resources that will help tenant leaders successfully carry out their roles and responsibilities. Twenty-three Community Representatives participated in the workshop.
- The orientation covered: the Tenant Charter, the new TCHC operation structure and pillars, information about regional staff and their roles, Tenant Engagement System, Service Quality Indicators (SQI), Community Action Plans (CAP), and Tenant Action Funds (TAF).

Tenants and staff engage in a discussion at a Tenant Community Action Table event

Tenant Action Fund

- In 2022, a total of 157 applications were received. One hundred and fifty-four were approved, valued at \$85,941.58.
- The breakdown of approved funding by region is as follows: (a) \$58,328 for East region, (b) \$68,864 for West region, and (c) \$17,077 for Central region.

Toronto Seniors Housing transition

In May 2021, Toronto City Council directed the creation of Toronto Seniors Housing Corporation (TSHC). This new corporation was created to provide seniors with safe, well-maintained homes and improved conditions, services, and experiences.

- The City of Toronto, TCHC, and the Toronto Seniors Housing Corporation worked through the end of 2021 and into 2022 to implement a seamless transition plan to transfer responsibility for operating TCHC's 83 seniors-designated buildings to the new corporation. This transition happened on June 1, 2022, as TSHC took over management and focused on meeting the needs of nearly 15,000 senior tenants.
- In order to address concerns of tenants and staff, we held multiple focus groups and information sessions ahead of the transition date. A strong communications campaign engaged and informed tenants and all stakeholders. Significant efforts were made to gather feedback to ensure that an understanding about the transition was achieved.

Tenant Service Hubs

Tenant Service Hubs are a key component of our new service delivery model created under TCHC’s 2019 restructuring plan. The Hubs provide tenants with a “one-stop shop” for services and support, bringing them closer to where tenants live. Increasing access to services and supports enables tenants to get in-person service, meet with staff one-on-one, place work orders, hand in annual review paperwork, pay rent, and more.

TCHC opened new Tenant Service Hubs in communities across Toronto in 2022.

Partnering with the community

The construction of an iconic new basketball court in the Kingston Galloway community in Scarborough was made possible through a special collaboration between TCHC tenants and staff, Toronto artist [Jerry Rugg](#) (also known as birdO) and [StreetArt Toronto](#). Community members, neighbours and friends of Kingston Galloway were also able to be a part of the creative process, adding to the incredible wall murals that surround the court.

Programs and partnerships

Through collaboration with our community partners, and a dedicated staff team, Toronto Community Housing provides tenants with a breadth of diverse programming through a range of recreation, work placement, scholarship and social programs. Key partnerships in 2022 were integral in helping to serve the diverse needs of our communities.

Investing in potential

There was a greater sense of normalcy in 2022 with most programs being offered beyond video-conference settings and tenants finally being able to come together in-person. Working together with our corporate partners and funders, we connected tenants across TCHC communities to programs and engagement opportunities throughout the year.

Our flagship and regional programs invested in the potential and talents of our youth tenants and focused on physical literacy, sports, arts, employment, education, leadership skills, and more.

Midnight Basketball League (in partnership with MLSE Foundation and University of Toronto)

Midnight Basketball League (MBL) returned in 2022 after a three year hiatus due to the pandemic. It is a unique basketball program that provides a positive space for TCHC boys aged 14 to 18 to develop their skills both on and off the court. The program featured a longer season. In addition to traditional sport outcomes, this program dedicated time each week to deliver off-court workshops focused on health, academics and economic empowerment through employment as a means to increase community safety. Last year included a star-studded roster of guest speakers, including players from the Toronto Raptors.

League of Her Own (in partnership with MLSE Foundation and University of Toronto)

A brand new pilot program was launched in 2022 specifically for TCHC female youth aged 13 to 18. The basketball program, League of Her Own presented by Midnight Basketball, was created in partnership with MLSE Foundation and the University of Toronto. Thirty-five female youth from across TCHC regions could come to a safe place to learn, practice, and enhance skills for four weeks in the summer at the University of Toronto. Featuring student athletes and special guest speakers, youth participated in workshops on success as a student athlete, how to take care of their bodies and building long-lasting positive habits.

Rookie League (in partnership with Jays Care Foundation)

This past summer, TCHC continued to run its popular, summer-long baseball day camp for children ages 6 to 12. Running from July to August and fully in-person, the program launched on Opening Day 2022 at Dovercourt Park where hundreds of kids were able to participate in a full day of interactive games, skills-and-drills and play stations featuring bouncy castles and inflatables. Rookie League also continued to offer a Leader in Training (LIT) camp for youth ages 13 to 15. LIT included both virtual and in-person components where youth gained life skills in leadership, teamwork, communication and self-esteem.

TCHC staff member Likwa Nkala speaks to the media about the impact of Rookie League

KickStart (in partnership with MLSE Foundation)

In 2022, 229 kids ages 6 to 12 registered for the soccer camp from across East, West, and Central regions. Finally coming together in-person with friends in their respective communities, children were able to participate in physical activity through skills and drills, stretches, and scrimmages. In August, the program held its annual season-end Fun Day at BMO Training Ground where 80 kids from seven TCHC communities participated in soccer activities, scrimmages and had a meet-and-greet with players from the Toronto FC.

YouthWorx

YouthWorx is an employment program that focuses on employing young people between the ages of 14 and 29 as Youth Community Workers. Last year, 100 Youth Community Workers were hired for eight weeks during the months of July and August as they carried out work at 50 community sites. YouthWorx reduced barriers to employment for youth and provided opportunities in various small-scale labour jobs, including community clean ups, light repair jobs, community gardening and more.

Investing In Our Diversity Scholarship (IIODS)

The Investing In Our Diversity Scholarship (IIODS) awards \$4,000 scholarships to Toronto Community Housing youth based on academic excellence, financial eligibility and volunteer involvement in community leadership, anti-racism or diversity initiatives. In 2022, 54 scholarships were awarded to recipients to support their post-secondary tuition and expenses.

2022 IIODS recipients, donors and community members attend the scholarship celebration

Use of Space

The Strategic Service Partnerships and Compliance (SSPC) team was formed in September 2020 with a focus on bringing partners currently operating into compliance and streamlining the use of space processes and improving service delivery. Since September 2020, SSPC has engaged with 207 agencies and 112 tenant-led groups to animate the use of non-residential spaces. In April 2022, the Ontario government lifted all public health measures. As a result, all indoor and outdoor amenity spaces were opened for essential and community support programming after a use of space agreement was signed with TCHC. SSPC implemented an opt-in/application process to ensure a seamless return for partners in 2022.

From the inception of the SSPC team, 319 applications for non-exclusive use of space have been processed. Of these, 198 were reoccurring use of space applications and 121 were one-time use of space applications. In 2022 alone, 186 applications have been processed, 58 one-time and 128 re-occurring use of space applications. As of December 30, 2022, 52 distinct partners have been offering reoccurring programs for tenants in 72 TCHC buildings.

Community impact

We recognize the importance of bringing positive change into our communities and the lives of our tenants. Through a range of initiatives, partnerships and services, we made progress in creating more future-ready, innovative and safe communities.

Stop the Bleed

- This pilot program provided life-saving training to 35 participants across a number of communities that are part of TCHC's Violence Reduction Program.
- The Stop The Bleed trainings teach how and where to apply pressure to prevent blood loss in the event of serious injury.
- One of the participants **became a certified instructor herself**, a milestone for the social and economic impact of the Violence Reduction Program.
- The trainings took place across Toronto Community Housing's Yorkwoods, Driftwood and Rexdale communities.
- As an initiative of our Violence Reduction Program, the trainings were carried out by Toronto Community Housing in partnership with Sunnybrook Hospital.
- Find out about upcoming training opportunities via **torontohousing.ca/stopthebleed**.

Tenant Conservation Goals

- 700 TCHC and TSHC staff members successfully completed an educational program created in collaboration with the Saskatchewan Environmental Society to advance TCHC's commitment to reduce 25% of its energy consumption by 2025.
- The Conservation team conducted and distributed building utility reports to 172 high rise buildings generated using a building's utility usage data. The reports

aim to provide Operations staff with a clear overview on how their building is performing in terms of energy, water and waste.

- 60 new conservation bulletin boards were installed across TCHC and TSHC building portfolios.
- 2,434 thermostat kits were distributed to ten Regent Park buildings, 1,217 tenants were engaged to learn more about the kits.
- The Conservation team engaged 6,955 tenants and distributed 1,785 thermostat educational materials.
- 35 buildings took part in the Smart Compaction Program that reduced garbage volumes by over 550 cubic yards and saved over 200 garbage pickups in less than four months.
- Through tenant education in 2022 we saw an increase in participation in waste programs and a decrease in illegal dumping activity, which led to a decrease in removal fees.

New conservation bulletin boards have been installed in buildings across TCHC and TSHC communities.

Rapid Rehousing initiative

- The Rapid Rehousing Initiative began in April 2020 as an agile response to emerging housing needs during the COVID-19 pandemic.
- This program matches individuals experiencing homelessness with vacancies within the TCHC portfolio—often bachelor and one-bedroom units that are not easily filled from the centralized waiting list.
- Units are fully furnished, and new tenants are provided with clothes, bedding and toiletries.

- Rapid Rehousing tenants are supported by a collaborative network of local site staff, the Community Resolutions team, community agencies, and City of Toronto teams. Community support workers use a wraparound approach to support successful, long-term tenancies.
- The program shows that a pathway can be created between homelessness and housing by bringing partners in the social support system together, overlapping their strengths for a holistic solution to individual needs.

Outcomes

- Placement of over 1,400 tenants in 1,144 housing units
- 20% Indigenous, 33% seniors, 30% female-led households, 10% youth
- Success rates: 93% of households remained housed
- Eviction rate of less than 1% among RRHI tenants

Confronting anti-black racism

The Centre for Advancing the Interests of Black People laid the foundation and took corrective action toward addressing the historical and ongoing harms of anti-Black racism. 2022 was an important year that delivered significant impact through both staff and tenant engagement.

Setting the foundation for change

In its first year, The Centre for Advancing the Interests of Black People (‘The Centre’) started to engage with staff, tenants and community partners to implement the Confronting Anti-Black Racism (CABR) Strategy. In 2022, the Centre intentionally laid the foundation and took corrective action toward addressing the historical and ongoing harms of anti-Black racism at Toronto Community Housing.

The CABR Strategy is a multi-year plan intended to drive institutional change, establish strategic and sustained relationship building among diverse groups, impact service delivery and influence change through multidisciplinary research, analysis, and strategic narrative. You can watch the CABR 2022 year-end video by scanning the QR code below.

The Centre’s partnership forum was attended by representatives for more than 30 organizations

Forum participants discussed the potential of services that better serve Black tenants

Strengthening community and staff engagement

In 2022, The Centre focused on fostering relationships with external and internal stakeholders, so they can generate more awareness about the Centre's function and increase the organization's capacity to dismantle anti-Black racism. Barry Thomas was appointed as the new Centre Director in December 2022.

By the end of its first year, The Centre has achieved several milestones, including:

- Investing more than \$40,000 through the Centre Funds. This investment created new opportunities for 433 tenants across eight communities to develop and implement Black-led initiatives and programs that met the community's needs.
- Partnering with the Black Creek Community Health Centre to develop the Black Business Essentials workshops and connecting 45 Black tenants to receive free entrepreneurship training and micro-credentials through York University.
- Hosting a partnership forum in October 2022 with representatives from 30 organizations to discuss the potential collaboration in addressing anti-Black racism in the city and building services that better serve Black tenants.
- Teaming up with Human Resources to update TCHC's recruitment program to include an anti-Black racism lens — taking steps to increase the representation and retention of Black workers and professionals at TCHC.
- Receiving 103 cases related to anti-Black racism and resolving 25 per cent of the cases.
- Completing more than 600 hours of staff training and developing six training modules for business units.

About Our Tenants and Buildings

TCHC’s tenants come from many different backgrounds with a diversity in age, education, language, religion, ethnicity and race. Youth tenants continue to represent a significant number of individuals in our overall communities; 32,262 or 36.25% of TCHC tenants are youth under the age of 24. When Toronto Seniors Housing Corporation transitioned into its own organization, it took with it a large number of single-person households. However, single-person households remain the largest group at TCHC, with 19,111 or 46.6% of households in this category. The average length of tenancy is just over 11 years. TCHC’s overall portfolio includes 1,347 buildings and 43,776 units. In 2022, 13,970 units were transitioned to Toronto Seniors Housing Corporation, 843 scattered units were transferred and 327 scattered units are pending transfer.

Governance and Management

Board of Directors

Our Board of Directors oversees the management of Toronto Community Housing and monitors our performance against our strategic plan.

The Board of Directors consists of the Mayor or his representative, three City Councillors, and nine citizens, including three Toronto Community Housing tenants. The board is accountable to the sole shareholder, the City of Toronto, through presentation of its business plan, annual reports and financial statements.

The board delegates key areas of interest to three board committees:

- The Building Investment, Finance and Audit Committee (BIFAC) helps the board in fulfilling responsibilities on items such as capital funds and investments, financial compliance and internal and external audits.
- The Governance, Communications and Human Resources Committee (GCHRC) helps the board implement appropriate standards of corporate governance, and fulfills oversight responsibilities on corporate governance, executive compensation, succession planning, government relations and corporate communications.
- The Tenant Services Committee (TSC) helps the board in fulfilling its responsibilities on matters such as community relations and tenant engagement, community safety and security, and oversight of the Office of the Commissioner of Housing Equity.

1. Quality Homes

1.1 Sale of Single Family Homes

TCHC reports annually on the sale of properties, and on the tenant and community impacts resulting from such sales, as required by Section 10.3.1 (k) of the Shareholder Direction. In 2021, TCHC signed an agreement for purchase and sale for two non-profit proponents, Neighbourhood Land Trust (NLT) and Circle Community Land Trust (CLT), for the transfer of 643 properties with 761 units.

In 2022, TCHC completed the transfer of 633 properties with 750 units to NLT and CLT. The 10 remaining properties have severances outstanding with estimated completion in 2023/2024. TCHC continues to engage tenants to ensure they are not negatively impacted by these transfers.

TCHC also completed the transfer of four agency houses to Margaret's Housing and Community Support Services and to St Michael's Homes. TCHC continues to work closely with the City of Toronto to transfer the remaining agency houses and rooming homes in TCHC's portfolio.

1.2 Update on Current Capital and Development Projects

TCHC reports annually on current development projects as required by Section 10.3.1 (m) of the Shareholder Direction and on tenant-engagement activities as required by Section 10.3.1(h) of the Shareholder Direction. There are currently 8 TCHC communities undergoing revitalization, with 364 social housing units under construction in 2022. TCHC continues to collaborate with the City's Housing Secretariat on the implementation of the TCHC revitalization program. TCHC revitalization projects are crucial to improving the housing, health, and socioeconomic conditions of Toronto's most marginalized residents.

1.2.1 2022 Revitalization Site Progress

At our Don Summerville community, construction began on the market and affordable rental components of the project. Final design, minor variances, and site preparation work was completed on the rental replacement building, which will include 103 RGI and 35 affordable rental units. Construction is slated to begin on this building in Q2 2023.

In our Firgrove community, the decommissioning, abatement, and demolition of 236 units was completed in 2022. In addition, new fencing was installed and site grading prepared as an interim condition on the vacant parcel in 2022. An event in honour of the community and relocated tenants was held in October to recognize and celebrate the strong ties shared by the tenants of the Firgrove community.

In Lawrence Heights, above ground construction of 48 low rise rental replacement units continued in 2022. Construction of the final 3 municipal roads and related infrastructure, as well as private underground servicing for the next block of 49 low rise market and rental units within Phase 1, was completed.

The rental replacement portions of Allenbury Gardens and Leslie Nymark achieved full occupancy in 2022 – market building work on both sites are progressing well and on schedule.

In Alexandra Park, road and servicing work for phase 2A was completed, and excavation for buildings has commenced. An affordable rental and ownership housing strategy was confirmed through in-depth engagement with the community, approved by Council, and will be delivered in partnership with Habitat for Humanity GTA. A competitive procurement process with strong focus on community involvement has resulted in the appointment of a design team lead by international firm Karakusevic Carson Architects (KCA) to develop the replacement Alexandra Park Community Centre, to be delivered in phase 2B

Lastly in Regent Park, construction continued on the final Phase 3 rental replacement building of 213 units. In parallel, work for Phases 4 and 5 began with community engagement on a rezoning application. If approved by the City of Toronto, the application would allow for the creation of more affordable housing opportunities, improving the lives of more families.

1.2.2 Engagement in Revitalization Communities

TCHC engaged tenants across all its revitalization sites throughout 2022, regarding social and economic transformation projects in partnership with the City, community agencies, and development partners.

The 37 Kids program engaged 37 youth from the Lawrence Heights and Neptune communities in weekly safety and community engagement summer workshops in 2022. Topics ranged from building an online brand to poetry. The youth also had an opportunity to go out into the community and engage residents through surveys and giveaways. The program was successful and immensely popular among the participants. The hope is that the youth continue to stay engaged in their communities as adults and continue to participate in community engagement activities. In addition to the 37 Kids program, the Lawrence Heights engagement team connected with over 52 youth through programs including Revite Nerds, Youthworx (LH Chapter), I am Lawrence, Outreach Kids, and Outreach Coordinators.

As part of TCHC's development partner relationships, developers contribute to scholarship funds in our communities, which are available to student tenants to further their education. This year, tenants were supported through scholarship and learning grant programs funded by TCHC and our development partners.

In 2022, 25 Lawrence Heights tenants were awarded the Limitless Heights Scholarship, bringing the \$500,000 scholarship program to a close. Since launching the program in 2013 by developer partner Heights Development, 154 students have been awarded a scholarship. In addition, over 100 tenants were connected to community and economic development (CED) opportunities in the development and construction sector, rounding out the \$3.5M in CED contributions by Heights Development.

11 scholarships were awarded at Leslie Nymark and Allenbury Gardens. Additionally, summer art workshops were held with professional art facilitators instructing participants in popular music, dance, and street art techniques. Approximately 20 children ranging from ages 5 to 12 attended 6 workshops, whose work was showcased at the End of the Summer Jam event. In partnership with The Neighbourhood Group, Leslie Nymark and Allenbury Gardens tenants were hired through the Community Animator Program to connect to the broader community about employment and scholarship opportunities, events, and programming needs at each respective community. Community Animators have also been assisting with activating programming for the new and unique amenity spaces delivered at Leslie Nymark, such as the commercial kitchen and music room.

In Regent Park, TCHC engaged more than 1,500 residents as part of the Phases 4 and 5 rezoning engagement plan, which included surveys and physically distanced and in-person meetings, building support for a rezoning application that includes a significant increase in density. The Regent Park Team also kicked off a tenant engagement process to determine community priorities for the use of \$26.8 M in community benefits funding committed by Tridel as part of their proposal for Phases 4 and 5. The CRAFT and Moving Towards Opportunities programs were launched, which together supported 30 young people in accessing training and job opportunities. An additional 184 Regent Park residents secured economic opportunities ranging from formal employment, training, and social procurement contracts through partnerships with Daniels, Tridel, and local organizations.

In Alexandra Park, a robust community engagement process was undertaken to formalize the Phase 2 CED agreement. The agreement will support employment, scholarships, tenant business development, and resources to implement the social development plan. During 2022, 31 residents secured new employment and business opportunities.

In Don Summerville, staff continue to support relocated tenants to access social and economic opportunities. 41 tenants were engaged in pre-employment activities and 27 secured either training, employment, or scholarship opportunities in 2022.

In 250 Davenport, through over 700 points of contact, tenants have accessed social, mental health, and food security services through TCHC-leveraged partnerships. A service delivery partnership with Cota Health was secured to continue the implementation of the social development plan for the community. In addition, over 70 tenants secured employment or learning grants throughout 2022.

1.2.3 Energy Efficiency

TCHC reports annually on environmental and energy efficiency targets identified in its Strategic Plan; as required by Section 10.3.1 (n) of the Shareholder Direction. To meet the energy reduction target as specified by the National Housing Co-Investment Fund agreement between the City and the Canada Mortgage and Housing Corporation (CMHC) and the City of Toronto's net zero target by 2040, TCHC has significantly increased its financial and human resources investment in energy conservation measures (ECM) since the beginning of implementation of National Housing Co-Investment Fund program in 2018.

Some highlights of energy conservation measures implemented in 2022 include:

- Common area and exterior LED lighting retrofit at 39 sites;
- In-suite LED lighting retrofit including replacement of refrigerators at 43 sites through the Energy Affordability Program (EAP);
- In-house re-commissioning program to modernize and optimize mechanical, electrical, and building automation systems at 10 sites;
- Completion of the Leadership in Conservation (LIC) program which provided the basics in utility conservation techniques and methods of engaging tenants to over 700 frontline staff; and,
- Water efficiency retrofit at 22 buildings which included replacement of toilets, showerheads and aerators.

Compared to the adjusted baseline average from 2013-2017 energy consumption, TCHC's 2022 year-end energy consumption is reduced by 13.1%, on energy reduction target as required by the National Housing Co-Investment Fund agreement.

2022 Year-End Actuals (Adjusted for Covid-19 and CHPs)	Total Energy	Electricity	Natural Gas
	(GJ)	(kWh)	(m³)
Adjusted Baseline Consumption	4,934,387	395,397,316	94,127,517
Adjusted Actual Consumption	4,288,059	361,361,906	80,084,622
Energy Reduction	646,327	34,035,410	14,042,896
% Energy Reductions	13.1%	8.6%	14.9%

1.2.4 Engagement on Capital Projects

The Planned Project Services (PPS) team supports the delivery of TCHC capital projects. The team's primary objective is to minimize disruptions to tenants while work is underway, whether the capital repairs are completed in-suite or in common areas. This is accomplished by managing tenant expectations through communication, engagement and collaboration with all stakeholders. The key is to ensure tenants have an understanding of the project and its benefits, and to communicate timelines, project disruptions and changes as needed.

The PPS team collaborates with stakeholders to develop a plan that is tailored for each project and tenants. This includes a variety of communication and engagement including in person meetings, distribution of notices and flyers, lobby intercepts, and surveys. The team also performs a wide range of services including follow-up on tenant and staff issues and concerns, and works closely with other TCHC divisions to provide additional supports to tenants throughout the process.

In 2022, the PPS team was restructured to align with TCHC's new regional structure and the newly formed TSHC. This restructuring has allowed the team to build stronger relationships with regional and site staff, tenants and tenant leaders, and external stakeholders. As a single point of contact, the restructured PPS team supported 241 capital projects in 2022 with over 70,000 tenant engagement points. The team continues to explore innovative engagement solutions to enhance program delivery and to improve the tenant experience.

2022 PPS Engagement Activities	Central	East	West	Seniors	Total

1.3 Update on Ten-Year Capital Financing Plan

TCHC reports annually on an updated Ten-Year Capital Financing Plan as directed by City Council motion *EX35.4* 2013. The motion requires TCHC to report on:

- total amount of capital backlog repair expenditures from the prior year;
- outstanding capital repair needs carried forward from the prior year;
- reductions to the capital repair backlog due to the sale of assets and/or revitalization;

- balance of the capital repair backlog reserve fund;
- changes in estimates for current and future capital repair requirements; and
- changes in estimates for current and future capital repair funding.

The Ten-Year Capital Financing Plan as of May 2022 is provided in Appendix A. The 2022 year end update is currently under development, and will be reviewed by the Board of Directors in June 2023.

2. Vibrant Communities

2.1 Tenant Engagement System

As mandated by City of Toronto, the purpose of the Tenant Engagement System is to increase tenant participation in local decision-making. In 2022, despite the challenges of the COVID-19 pandemic, the Tenant Engagement System unit achieved significant milestones in the implementation of a number of tenant-focused programs.

The following are highlights of Tenant Engagement System programs implemented in 2022:

Establishing tenant leadership across TCHC communities

In January 2022, by-elections were implemented to fill vacant positions in 120 TCHC family communities. 1,875 Tenants were directly engaged through flyers, emails, phone calls, door knocking, etc. 36 tenant meetings were organized to provide information to tenants about the election process. A total of 36 nominations were received, out of which 26 were confirmed. As a result, 25 Community Representatives positions were filled and 20 tenants signed up as Building/Townhouse Committee members. In total, there are 1,084 tenant leaders that are currently participating in the new Tenant Engagement System.

Implementing Service Quality Indicators at the hub level

Service Quality Indicators (SQI) allow tenants and staff to provide feedback on the quality of service delivery in TCHC buildings and communities. Based on the feedback, staff can then develop a Building Improvement Plan (BIP) to be used as a framework to address identified issues and challenges. In 2022, two separate SQI surveys were conducted involving elected tenant leaders from Phase 3 of Tenant Elections and the follow-up

by-elections. One hundred and fifty-six tenants participated in both surveys. A 93% response rate was achieved and 87% completion rate.

Establishing tenant leadership at the regional level

As part of TCHC's commitment to strengthening the establishment of tenant leaderships at the regional level, two Community Actions Table meetings were organized to promote tenant participation and address issues impacting the implementation of Tenant Engagement System.

In August, the first post-pandemic in person Tenant Community Actions Table (CAT) meetings were hosted across the three operational regions (Central, East, and West). The meetings provided opportunities for tenant leaders to provide feedback about improving and enhancing services in their communities. 158 Community Representatives attended the meetings in total.

As a result of the feedback, Engagement staff collaborated with staff from relevant divisions, reviewed issues raised by tenants, and provided timely responses on short term and long term solutions TCHC will undertake. Working with the Strategic Communications division, the feedback and responses provided by staff were documented and turned into a report, which was later shared with tenants.

In November and December, end of year regional forums were hosted in each region. 372 tenant leaders pre-registered. 293 tenant leaders (Community Representatives and Building Committee Members) attended the forums and 24 community partners participated as vendors.

A particular highlight of the forum was the panel discussion, which included TCHC subject matter experts responsible for the implementation of the priorities identified by tenants. The subject matter experts provided information and insight on short-term interventions underway to address issues raised by tenants and other plans in the works to address local priorities.

Tenant capacity building

Two orientation sessions were organized for elected tenant leaders in March 2022. The purpose of the orientation was to provide information and resources that will help tenant leaders to successfully carry out their roles and responsibilities. 23 community representatives participated in the workshop. The orientation covered: the Tenant Charter, TCHC new operation structure and pillars, information on regional staff and their roles,

the Tenant Engagement System, the Service Quality Indicator (SQI) survey, Community Action Plans (CAP), and Tenant Action Funds (TAF).

A series of workshops was also hosted for all tenants involved in the Tenant Engagement System as part of the Regional Forums organized in fall 2022. The workshops focused on developing solutions and charting a new course which will ensure the successful implementation of identified community priorities. The priorities identified through these workshops are: Safety & Security, Maintenance, Programs & Services, and tenant communication. 253 tenant leaders attended the workshops.

Tenant Engagement System (TES) Policy and Procedures

The Tenant Funds distribution policy and associated procedures were approved in June, 2022 by the TCHC Board of Directors. The policy provides a robust framework for the effective implementation of key tenant-focused programs like Tenant Action Funds (TAF) and the CABR Centre Community Funds. TCHC also made significant progress in 2022 consulting staff and tenants in order to improve on the Tenant Volunteer Policy and draft a new code of conduct procedure for tenant volunteers. The policy and its associated procedures will be brought to the Tenant Services Committee for review in 2023.

Community Action Plans (CAP)

CAP allows tenants and community leaders to discuss and collaborate to develop actions plans and frameworks to address identified priorities in their respective communities. In 2022, 108 out of 275 communities completed the revalidation of their Community Actions Plans. The revalidation process will continue in 2023.

Tenant Action Funds (TAF)

TAF provides resources to tenants and tenant groups to fund projects and initiatives that will respond to tenant-identified priorities. In April 2022, we continue the implementation of TAF across all the three regions (East, West and Central) of TCHC family buildings. A total of 157 applications were received, out of which 154 were approved with a total value of \$85,941.58.

The breakdown of approved funding by region is as follows:

Region	2022 Approved TAF Funding
Central	\$ 17,077
East	\$ 58,328
West	\$ 68,864

2.2 Eviction Prevention Policy and 2022 Eviction Results

2.2.1 Eviction Prevention Policy

In June 2021, TCHC advised the Board that, due to the ongoing COVID-19 pandemic, there was a risk that tenants would lack access to stable housing. Based on ongoing consultations with the City staff, the President and Chief Executive Officer directed all staff to continue to the Eviction Moratorium for Arrears until the start of the third stage of the Provincial reopening plan. Due to the continued challenges posed by the pandemic, TCHC decided that it would hold off lifting the Eviction Moratorium for Arrears to ensure as many tenants remain housed as possible.

In January 2022, TCHC observed a substantial increase in arrears for non-payment of rent. Upon further review, the increase was disproportionately driven by a sub-set of tenants who had stopped paying their rent while having the means to do so. As a result, TCHC initiated an in-depth review to inform a targeted eviction restart plan.

TCHC completed a review of all tenants who had arrears for non-payment of rent. As part of this review, TCHC utilized the following criteria to inform the decision whether or not to proceed with eviction:

- Tenant income reported in ARR demonstrates the ability to pay;
- Tenant not forthcoming on income for a prolonged period;
- Sporadic or non-payment of rent;
- Minimum \$10K in arrears;
- Progressively increasing arrears;
- Reviewed by OCHE;
- Received order; and
- Imminent expiry of existing eviction order.

The \$10K minimum threshold was developed based on a tenant's average cost of rent per year. This made up only 5% of accounts with arrears, while the majority of accounts in arrears have balances under \$5,000. As TCHC aims to ensure tenants remain in their homes, TCHC uses this triaged and staggered approach to ensure tenants receive the appropriate level of

engagement and support. An emphasis was placed on outreach, and staff ensured that plans to provide support to households were in place as required. The most pressing cases of outstanding arrears (\$10,000+) were addressed in 2022, and lower arrears amounts will be addressed in 2023.

2.2.2 2022 Eviction Results

TCHC reports annually on the number of evictions each year and the rationale therefor as required by Section 10.3.1 (j) of the Shareholder Direction. Under the *Residential Tenancies Act*, tenants can be evicted for a number of reasons. These include, but are not limited to, non-payment of rent, engaging in unlawful activity on TCHC property, and acting in a manner that interferes with the reasonable enjoyment of other tenants. TCHC works with tenants to help them meet the responsibilities of their tenancies and, when possible, to keep their housing by complying with the Eviction Prevention Policy and Evictions for Cause Policy, and leveraging the resources of the Office of the Commissioner of Housing Equity.

The table below compares the eviction rates between 2020, 2021, and 2022, and identifies the number of tenancies that have been maintained through repayment agreements and mediated settlements. The number of evictions in 2022 was relatively high compared to previous years due to the Landlord Tenant Board (LTB) addressing the substantial backlog of applications following the end of the provincial moratorium on evictions, and TCHC implementing an eviction restart plan. The outstanding number of active applications at the LTB as of December 31, 2022 is significantly lower than in the previous two years, due to the LTB's backlog of cases steadily being addressed over the course of 2022.

Measure	2018	2019	2020	2021	2022
Eviction Rate	<1%	<1%	<1%	<1%	<1%
Tenant Evictions (non-arrears)	102	117	47	35	411
Tenant Evictions (arrears)	160	108	39	10	33
Tenant Evictions (# of households)	262	225	86	45	444
Repayment arrangements initiated locally	2,855	2,822	1,958	1,033	792
Number of active TCHC applications at the Landlord and Tenant Board (as of Dec 31)	495	579	322	715	193
Mediated settlements via LTB (arrears)	793	588	233	160	100

Evictions for Non-Arrears

The table below describes the possible reasons for issuing eviction notices, and provides a count of households served with a notice for each rationale in 2022. The number of notices served is greater than the number of applications filed because a single household may have cause for termination under multiple clauses of the *Residential Tenancies Act* (“RTA”). The LTB requires that different notice of termination forms be completed for different grounds under the RTA.

The serving of an eviction notice does not automatically mean that an application at the LTB will be filed or that the tenant will be evicted. Some notices create an opportunity for correction (e.g. Anti-Social, support provided to clean up unit, etc.) before an application can be filed, while others offer no opportunity to correct behaviour (e.g. Health & Impaired Safety, Illegal Act).

Reason for Notice	2022
Abandoned Unit (direct application)	1
Anti-Social Conduct	142
Cease to Qualify	0
Damages to Unit of Complex	15
Demolition Conversion or Repairs	0
Health & Impaired Safety	103
Illegal Act	94
Misrepresentation of Income	3
Superintendent's Unit	0
Tenant Gave Notice (direct application)	2
Termination of lease (supportive housing)	1
Unauthorized Occupant (direct application)	12
Other (e.g., Tenant's Rights)	38
Total Notices Served, Tenant Applications Received, or Direct Applications Filed	411

2.3 Corporate Policy Adoption and Human Rights Complaints

2.3.1 Policy Adoption for Conflict of Interest, Political Activity, Disclosure of Wrongdoing, and Reprisal Protection

In accordance with Section 11.5 of the Shareholder Direction, TCHC has adopted the following policies, procedures, and guidelines related to conflict of interest, political activity, disclosure of wrongdoing, and reprisal protection:

1. Code of Conduct for Board of Directors;
2. Code of Conduct Policy (Employees);
3. Conflict of Interest Policy for Directors of the Board;
4. Conflict of Interest Policy (Employees);
5. Elections Policy;
6. External Directorship Policy;
7. Fraud Prevention Policy;
8. Guidelines for Elections Policy; and
9. Whistleblower Policy.

2.3.2 Human Rights, Harassment, and Fair Access Policy

In accordance with Section 9.1(c) of the Shareholder Direction, TCHC is required to maintain an environment in which Tenants are protected from harassment and human rights are respected and upheld. In support of this obligation, TCHC has adopted a variety of policies, procedures, and guidelines to ensure that it complies with its obligations in this regard. Relevant policies, procedures, and guidelines developed and maintained by TCHC include:

1. Accessible Customer Service Policy;
2. Accessible Customer Service Policy Guidelines;
3. Accessibility in the Built Environment Policy and Building Standards on Accessibility;
4. Accessibility Policy; and
5. Human Rights, Harassment and Fair Access Policy.

The Human Rights, Harassment, and Fair Access Policy (“HRHFA”) was developed in consultation with tenants, and since 2016 tenants’ human rights concerns have been addressed under the HRHFA.

TCHC is dedicated to building employee knowledge and awareness of human rights and accessibility. In 2022, TCHC continued to deliver training sessions on the Accessibility for Ontarians with Disabilities Act (“AODA”) to staff. In 2022, 14 AODA sessions were delivered to 341 staff as part of General Orientation training.

2.3.4 Human Rights Complaints

TCHC tenants are able to submit human rights complaints to a dedicated TCHC inbox (humanrights@torontohousing.ca), which is monitored by its Solutions Team. A Complaints Resolution Specialist reviews, triages, and refers the complaint to the appropriate General Manager for investigation and resolution. If a complaint does not include any clear and specific human rights implications, the Solutions Team may action accordingly and complete the necessary follow-up with the tenant.

If a complaint specifically concerns an instance or ongoing issue with anti-Black racism, the complaint is forwarded to the Centre for the Advancement of the Interests of Black People (the Centre). The Centre also receives anti-Black racism complaints through the dedicated TheCentre.ResolutionsCoordinator@torontohousing.ca email for tenant related incidents, and TheCentre.HumanRights@torontohousing.ca for staff

related complaints. Upon the Centre's receipt of a human rights complaint regarding anti-Black racism, staff of the resolutions team with the Centre will vet the email and follow up with the appropriate action.

In 2022, The Solutions team received 82 complaints through the dedicated human rights complaints email inbox. Of these, 27 requests were flagged by staff as human rights issues to be investigated further through their respective regional operations teams (an average of 2.25 complaints per month). The other 55 complaints did not meet the criteria of human rights issues, and were managed by the Solutions Team through the regular escalation process.

A further 103 complaints concerning anti-Black racism were managed by the Human Rights Specialist for the Centre (an average of 8.58 complaints per month). Of the 103 complaints handled by the Centre, 26 were raised by staff (either staff-to-staff or tenant-to-staff incidents) and 78 were raised by tenants (either tenant-to-tenant or staff-to-tenant incidents). 24 complaints have been fully resolved, and 79 are currently ongoing. An ongoing complaint can mean the complaint is partially resolved, is awaiting action from a particular TCHC division, has been put on hold at the request of the complainant, or is still under investigation.

2.3.4 Human Rights Applications to the Ontario Human Rights Tribunal

The table below shows the status of new human rights applications to the Ontario Human Rights Tribunal involving TCHC in 2022.

Human Rights Applications (2021 and 2022)						
Year	Type of File	Resolution/Status				Total
		Withdrawn	Dismissed	Settled	Ongoing	
2021	Accommodation/ Request for Transfer	1	0	1	2	4

3. Positive Experience

3.1 Communicating with Tenants

3.1.1 Communication with Tenants in the Language of their Choice

TCHC reports annually on initiatives to provide responsive customer service as required by Section 10.3.1 (g) of the Shareholder Direction. Over 30% of TCHC's tenants speak a language other than English, and serving tenants in the language of their choice is a priority for TCHC. Currently, corporate communication products aimed at all tenants are translated upon

request into multiple languages. TCHC also uses icons, illustrations and plain language in information materials to improve communication with all language groups.

For important documents, like legal notices, which TCHC must serve to tenants in English or French, a standard cover letter is included explaining in 18 languages that the document they received is important and that they should have it translated if needed. In 2023, TCHC is investigating how these cover letters can be updated so that they are more specific to the package they are included with.

Certain communication campaigns are proactively translated into multiple languages, depending on the nature of the topic. For example, communication materials produced by TCHC for tenants in the Seniors Housing Unit about the transition to the Toronto Seniors Housing Corporation (TSHC) in June were proactively translated into 14 languages and made available on the new TSHC website. Communication materials were also produced for the Swansea Mews critical incident response and were proactively translated into the community's preferred languages; these documents were made available at all temporary housing accommodations and were posted on the TCHC Swansea Mews webpage.

In 2022, a series of Fire Safety posters were piloted where short written copy was presented on the same poster in English and in the additional top five languages spoken in TCHC communities. This was a timely and effective way of presenting concepts to multiple tenant demographics, without forcing tenants to request information to be delivered at a later time.

For in-person or over-the-phone customer service language interpretation, staff in the Client Care Centre currently use a third-party "language line" that provides interpretation services in 138 languages.

3.1.2 Communication to Better Serve Tenants

Several focus groups for tenants were led by a third-party facilitator in mid-2022. The intent of these focus groups was to determine opportunities and challenges that tenants face when communicating with TCHC. The focus groups identified opportunities to improve building, staff, and customer service-related responses and communications.

TCHC is currently working to create additional communication channels and products to enhance tenant communications. A tenant email list has

been established to tailor and customize communications for specific communities and buildings, and SMS text notifications are also being used for building-specific communications. Increasing the use of digital channels also reinforces information and campaigns sent via print materials. In 2022, TCHC continued to build its digital communications capacity, including a more active use of social media for updates and “boosted posts” to key audiences. TCHC increased the number of digital screens in our buildings in 2022, and we will continue to expand this network each year. One example of building-specific communications that went out via email was the regular e-newsletter created in response to the Swansea Mews critical incident. This e-newsletter was an important vehicle to get information out to all affected tenants in a timely way, regardless of their location in the city.

TCHC also increased the use of QR codes in both digital and print resources. This was done as part of the strategy to streamline content and allow audiences to access additional information when and where they choose. It should be noted that TCHC’s digital communications will not replace existing print communications. The goal is to deliver important and timely updates to our tenants as well as providing an alternate channel for communication services.

To make sure messages are delivered more reliably, the 2022 editions of Tenant Loop (a quarterly newsletter mailed to tenants) included a dedicated section for key tenant updates. This section is a more reliable tenant communications vehicle for information that TCHC wants tenants to review. TCHC will also be increasing the use of direct mail for critical tenant information. Finally, challenges with existing communications processes will continue to be addressed, including bulletin board management and making sure tenants receive timely information in a more systematic manner.

In 2021, TCHC also conducted a full review of the corporate website and considered how to improve the site for tenant use going forward. In 2022, TCHC worked with tenants, vendors, and internal departments to re-design and re-develop the website. This work continues into 2023, with an expected launch in Spring 2023.

3.1.3 Tenant Complaint Process

TCHC is committed to providing a positive experience for tenants and communities. In accordance with Section 9.1(b) of the Shareholder Direction, TCHC is required to maintain an accessible, transparent

complaints process that advocates on behalf of Tenants to seek a solution to their complaints, respects the management accountabilities within TCHC and allows for the review of operational decisions at a senior level within TCHC. The effective management of complaints is an important aspect of delivering service excellence to TCHC tenants and supporting a culture of continuous learning and improvement.

In August 2022, the Solutions Team, in partnership with Strategic Communications, updated and renewed the communications campaign to increase awareness on how tenants can receive service and escalate unresolved issues at TCHC. Communicating with tenants about escalating their complaints to the Solutions Team at TCHC and connecting them to appropriate internal resources for complaint resolution will remain a priority for tenant communications.

Communications improvements in 2022 to support tenants' ability to effectively engage in the complaints process include:

- a dedicated page on the TCHC website was created for [Tenant Complaints](#) with a quick link from our homepage
- A [tenant complaints brochure](#) has been distributed to TCHC buildings, and will be included in the TSC's info package to new tenants. These brochures are also available at the HUB offices.
- Processes and resources for complaints resolution were featured on the back cover of the new Tenant Service Hub guide; a total of 5000 copies were printed and distributed.
- A number of social media posts were created throughout the year to remind tenants how to file a complaint or send a compliment
- The Solutions team has a dedicated permanent section in the Tenant Loop which is published quarterly and made available to all tenants, through which reminders and new updates can be shared broadly with all tenants.

In addition to developing communications materials, the Solutions team has conducted the following work in 2022 to ensure better service to tenants in resolving complaints:

Complaints Resolution Training

The Solutions Team is participating in comprehensive TCHC training bi-monthly. The training focuses on each department within TCHC and is delivered by one of the departments subject matter experts. The ongoing

training is an integral component of establishing the base knowledge of each tenant facing department necessary for supporting tenants through their complaints and moving towards resolution.

Process Improvement and Standardization

The Solutions Team is now reporting to the Operations Division quarterly on potential service gaps. This report includes any recommendations that the Solutions Team has recognized as an improvement to processes and procedures that may lead to the proactive management of tenant issues and resolving complaints prior to escalation

Complaints through the Office of the Ombudsman or Councillors' offices:

Inquiries from the City of Toronto Ombudsman's Office that are directed to the Solutions Team are addressed by the Manager and the Complaint Resolution Specialists. In 2022, TCHC received 72 inquiries from the Office of the Ombudsman. 42 per cent (30) were resolved within 10 business days. Inquiries from elected officials are managed by the Stakeholder Relations team. In 2022, TCHC received 1,955 inquiries from Toronto-area elected officials including the Mayor, City Councillors, Members of Provincial Parliament, and Members of Parliament. 92.3 per cent (1,798) were addressed within five business days.

4. Business Foundations

4.1 Transparency and Accountability

4.1.1 Executive Leadership Compensation

The TCHC Board of Directors approved an executive compensation framework in 2015, as directed by City Council motion EX44.8 2014. This framework will be reviewed every four years, with the next review taking place in 2023. TCHC reports annually on senior executive compensation in accordance with Section 10.3.1(o) of the Shareholder Direction.

The following table outlines senior executive compensation, as permitted by law, in 2022. Note that "senior executive" has been defined as all employees at the Vice-President level, and above, and employees who report directly to the Board of Directors.

Name	Position	Total Compensation	Taxable Benefit	Salary
Andrews, Maria Luisa	Vice President, Information and Technology Services	\$ 226,707.40	\$ 742.57	\$ 225,964.83
Gouveia, Nadia*	Acting Chief Operating Officer	\$ 205,598.92	\$ 719.33	\$ 204,879.59
Hawes, Jessica*	Acting Chief Development Officer	\$ 187,705.07	\$ 1,242.57	\$ 186,462.50
Knight, Paula	Vice President, Strategic Planning and Communications	\$ 238,585.01	\$ 742.57	\$ 237,842.44
Lee, Rose-Ann	Chief Financial Officer	\$ 246,340.12	\$ 570.21	\$ 245,769.91
Meagher, Darragh	General Counsel and Corporate Secretary	\$ 264,258.35	\$ 1,742.57	\$ 262,515.78
Murray, James A	Vice President, Facilities Management	\$ 214,564.05	\$ 742.57	\$ 213,821.48

Skeith, Kelly	Chief Development Officer	\$ 190,229.26	\$ 570.21	\$ 189,659.05

* Note: The salary of these individuals was calculated based on their partial term/year in a senior executive role with Toronto Community Housing.

The staff in the grey shaded boxes worked at TCHC for part of the year, and are no longer with the corporation.

4.2 Procurement

In accordance with Section 11.4 of the Shareholder Direction, TCHC is required to ensure all procurement activities including, but not limited to, materials management, purchasing goods, services and construction contracts, involving purchasing, leasing, or renting, are arrived at by competitive or non-competitive tendering processes, adhere to procurement best practices, policies and procedures and are managed in an open and transparent manner. TCHC works diligently to ensure all procurement activities including, but not limited to, purchasing, leasing or renting of goods and services, consulting, maintenance and construction contracts are arrived at by competitive processes wherever possible. All direct award requests are reviewed and approved in accordance with TCHC's Procurement Policy and Procedures. TCHC's procurement activities also adhere to public procurement best practices, legal compliance, and trade treaty requirements, and are managed in an open, fair and transparent manner to ensure value for money, the lowest total cost of ownership, and honest and ethical contracting.

In support of the 10 Year Capital Financing Plan, TCHC managed the vendor selection process, which allowed TCHC to deliver \$362.5 million in capital renewal projects against the 2022 budget, and delivered over \$4 million in non-building renewal capital. These funds are released to vendors in accordance with TCHC's Procurement Policy.

4.3 Update on Policies and Occupational Health and Safety

In accordance with Section 11.1 of the Shareholder Direction, TCHC is required to abide by all relevant employment and occupational health and safety legislation in the conduct of its operations, and will prepare appropriate policies in areas such as, but not limited to, fair wages for contracted services consistent with that of the City and employee compensation to address these objectives. Throughout 2022 TCHC's Human Resources Division continued to commit significant resources towards maintaining pandemic operations, business recovery, and supporting operational change and legislative compliance.

In early 2022, TCHC implemented a voluntary COVID-19 rapid antigen testing program as an additional safety measure for employees and maintained capacity limits, screening, self-isolation, and other workplace safety measures as recommended or required by Toronto Public Health. TCHC ended its emergency response and transitioned Emergency

Operations functions to business units as of May 31, 2022. TCHC continues to meet or exceed recommended control measures for COVID-19 based on public health and Ministry guidance.

TCHC returned all tenant-facing positions to the workplace effective April 4, 2022 and declared an end to emergency remote work for all staff April 19, 2022. Positions which could effectively provide service in a hybrid working model, as determined by management, were formally transitioned into hybrid working arrangements with safety and employment risk mitigation measures and training under a new *Hybrid Work Policy*, aligning with the City of Toronto's ModernTO plan.

TCHC followed the lead of the City of Toronto in revoking its policies for mandatory employee and vendor COVID-19 vaccination effective December 1, 2022. TCHC also made offers of reinstatement to unionized staff who had their employment terminated during implementation of this policy under terms negotiated with their bargaining unit based on precedents at the City of Toronto. Additionally, all related accommodation plans were updated to reflect the end of vaccine requirements for workers attending TCHC worksites. TCHC continues to strongly encourage and support all workers to get vaccinated against COVID-19 and stay up to date with recommended vaccinations.

The Health, Safety and Wellness Unit continued to effectively manage absences and disabilities for the corporation in 2022, including an additional 851 monitored absences due to COVID-19 illness or contact, 49% of which occurred in Q1-2022. TCHC managed to ensure the safe return of staff to the workplace and prevented excess claims or significant operational disruption related to COVID-19 illness. In 2022, TCHC experienced a total of 36 WSIB claims allowed due to COVID-19 infection or vaccine injuries. TCHC received zero compliance orders following 26 investigations by the Ministry of Labour Immigration Training and Skills Development initiated based on mandatory occupational disease reporting for COVID-19.

The employee Attendance Management Program continued to be suspended through 2022 in line with City practices. This program has been reinstated effective February 1, 2023. A new supportive program, tools, and training will be rolled out to supervisors in the first half of 2023.

Other major areas of focus in 2022 included:

- Providing safety, absence/disability management, and COVID-19 support services to the new Toronto Seniors Housing Corporation under a shared services agreement (extending into 2023);
- Supporting the Swansea Mews emergency response;
- Assessing and controlling workplace violence risks in new corporate offices and worksites; and
- Completing multi-year procurement for Employee and Family Assistance Program (EFAP) services with an expanded scope of work providing culturally responsive health and mental health counselling services, including Anti-Black Racism counselling, for TCHC staff.

Additional areas of focus in 2023 will include supporting the transition of employees to new worksites under ModernTO, a review of occupational health and safety policies, expanding wellness programming and training related to mental health and workplace violence/harassment prevention, and supporting supervisors to effectively manage employee attendance.

4.4 Challenges Faced in 2022

The Annual Report speaks to our successes and the actions that have been undertaken in 2022 to improve services to and outcomes for tenants; however, it is important to note some of the challenges that Toronto Community Housing faced in 2022 which impacted our ability to successfully meet our goals and objectives. These challenges have the potential to impact tenant and public confidence in the organization.

The COVID-19 Pandemic

TCHC's operations remained impacted by the COVID-19 pandemic into 2022. Managing the impact of the pandemic on the safety of our staff and tenants has remained a priority for TCHC since 2020. In 2022, TCHC focused on business recovery and fully resuming business operations gradually as restrictions lifted.

By January 2022, 97% of TCHC staff were fully vaccinated (including all staff providing in-person service) and TCHC was working to set up its third round of onsite clinics in the seniors portfolio, and continue to work with support clinics to offer vaccines throughout TCHC's family portfolio. TCHC also continued to complete wellness checks in the seniors portfolio to 970 tenants identified as high-risk and sent correspondence to 5,200 tenants in the family portfolio to share resources.

To align with the City of Toronto in safely resuming regular business operations as restrictions lifted, TCHC developed a hybrid work policy that combined in-office and remote work. In April 2022, emergency remote work ended for non-tenant facing positions, and hubs opened for counter service. TCHC also restarted programming in common spaces, and tenant engagement activities resumed in compliance with physical distancing requirements including virtual alternatives where practical. As staff started returning, TCHC provided Rapid Antigen Tests and continued to support staff to comply with self-isolation requirements and other workplace health and safety measures.

In May 2022, TCHC deactivated its Emergency Operation Centre for the COVID-19 response and transitioned necessary operations to appropriate business units with ongoing COVID-19 hazard controls established under the guidance of Human Resource's Health Safety and Wellness Unit.

Overall, in 2022 TCHC experienced increased expenditures of over \$8M primarily for PPE, rapid antigen tests, additional contracted labour for enhanced cleaning and security, overtime costs, and higher utilities usage by tenants.

Transition to the Toronto Seniors Housing Corporation

The creation of Toronto Senior Housing Corporation (TSHC) was directed by Toronto City Council. TCHC has been providing support to implement this initiative.

As planned, TCHC successfully transferred the day-to-day operations of the 83 senior dedicated buildings to TSHC on June 1, 2022. Given the complexity of creating a new social housing corporation, significant staff time and resources were directed to meeting this goal in the months leading up to the transition.

Staff continue to support this initiative to ensure minimal disruption to tenants.

While TSHC is operating the buildings and managing the tenancies, TCHC continues to own the buildings and to provide certain services to support TSHC with its operations.

Swansea Mews

On May 27, 2022, a piece of a concrete that formed part of the bedroom ceiling in a townhome unit in Block H of the Swansea Mews community collapsed and injured a person. First responders and TCHC's Community Safety unit responded and the victim was transported to hospital. Tenant's safety is TCHC's top priority and TCHC declared a Level 3 emergency, activating TCHC's Emergency Operations Centre (EOC).

With the support of an emergency order from the City of Toronto and the decision of the Superior Court of Justice, TCHC's EOC worked to evacuate all households in the Swansea Mews community. TCHC's EOC procured accommodations for 115 households in university dorms and hotels. TCHC also worked to furnish and renovate units at Regent Park to provide tenants with stable temporary accommodation.

Tenants were provided with timely, clear communication through town halls, e-bulletins and other notices and flyers. Staff remained onsite at Swansea Mews and at the temporary accommodation locations to ensure tenants were supported. To cover costs and other inconveniences, TCHC provided tenants with per diems, school transport, taxi chits, events (e.g. outings to see the Blue Jays) and other supports.

Throughout 2022, TCHC's relocation unit organized 14 rounds of relocation for Swansea Mews households. The team met one-on-one with tenants, fast tracked repairs to provide as many unit options as possible, arranged open houses and provided packing and moving support. Work continues into 2023 to integrate the remaining households into the Regent Park relocation process.

Overall, in 2022 TCHC experienced increased expenditures of \$14.9M primarily for overtime costs, per diems, onsite shoring, and temporary accommodations related to the Swansea Mews response.

Appendix C: Overview of Toronto Community Housing Corporation's Subsidiaries and Joint Ventures/Partnerships

This Appendix provides an overview of Toronto Community Housing Corporation's ("TCHC's") subsidiaries and joint ventures/partnerships ("Entities").

Summary

1. Development Entities

Generally, the Entities related to development were created for the purpose of shielding the parent from liability and/or to create joint ventures/partnerships with TCHC's development partners. Beyond minimizing liability, having a separate entity for each development project also allows for better tracking of project costs.

To date, with respect to the development Entities, only the development project associated with Don Mount Court Development Corporation ("DMCDC") is completed and DMCDC has been dissolved as of February 2, 2021.

2. Non-Development Entities

Each non-development Entity is briefly described below.

2.1 Access Housing Connections Inc.

Access Housing Connections Inc. ("AHCI") previously managed the centralized waiting list for Rent-Geared-to-Income ("RGI") applicants for the entire City of Toronto, the rent supplement program in Toronto, and the Housing Allowance Program (Canada-Ontario-Toronto). TCHC transferred employees to the City of Toronto in 2015 and the waiting list function of AHCI to the City of Toronto in 2016. TCHC brought forward a request to the City of Toronto for the dissolution of AHCI, which was approved by City Council in June 2018. The dissolution process will commence in 2023 as outstanding matters related to the transfer have been resolved with the City of Toronto.

2.2 2001064 Ontario Inc.

2001064 Ontario Inc. ("2001064") owns the title to 112 Elizabeth Street, which is a retail building connected to 111 Chestnut Street, a residential building owned by TCHC.

Maintaining separate title for the retail building allows for a more efficient sale if TCHC were to sell the commercial portion in the future; therefore, it is recommended that 2001064 be maintained as a separate Entity.

2001064 is a separate nominee Entity where substantial operations are managed by TCHC.

2.3 Toronto Affordable Housing Fund

Toronto Affordable Housing Fund ("TAHF") is a non-share capital corporation, for which TCHC is the sole member. TAHF delivers and administers home-ownership loans on behalf of the City of Toronto, Canada Mortgage Housing Corporation and TCHC. TAHF also manages second mortgages to qualified purchasers, funds transactions, and other related matters related to the implementation of the City of Toronto's affordable ownership program.

TAHF holds numerous outstanding mortgages that would be costly to assign to TCHC; thus it is recommended that TAHF continue to exist separately. TCHC is working with the Housing Secretariat on transferring this program back to the City of Toronto. On April 30, 2029, TCHC must relinquish these mortgages back to the City of Toronto. Containing all such activities in a subsidiary is deemed desirable, to make this future transfer back to the City of Toronto as effective and efficient as possible.

2.4 Toronto Community Housing Enterprises Inc.

Toronto Community Housing Enterprises Inc. ("TCHEI") was created as a holding company for Regent Park Energy Inc. ("RPEI") and Innoserv Inc. Innoserv Inc. was dissolved in 2014.

TCHEI is proposed to be amalgamated with RPEI. TCHC will continue to evaluate the strategic options of the merged TCHEI and RPEI entity.

2.5 Regent Park Energy Inc.

Regent Park Energy Inc. (“RPEI”) was created to manage the district energy system at Regent Park. RPEI is fully owned by TCHEI.

RPEI is proposed to be amalgamated with TCHEI. TCHC will continue to evaluate the strategic options of the merged TCHEI and RPEI entity.

TCHC Board Report to Establish Subsidiary/ Enterprise/Investment	TCHC:2003-30 TCHC:2006-134	
Original Rationale for Creation/Separate Corporate Existence	<p>Separation of liabilities between the development and TCHC as a corporation, which is of particular advantage in the relationship to the development partner.</p> <p>The use of a subsidiary also provides a separation of the development of the market component from the rental housing component. This improves accountability between the two adjoining projects. The use of RPDC also separates TCHC from the market component in terms of primary liability. Contracts relating to the market development (such as agreements of purchase and sale with condominium purchasers) are executed by RPDC, or the nominee, and not directly by TCHC. As a result, the primary liability on contracts rests with RPDC.</p>

Regent Park Arts Non-Profit Development Corporation (“RPAD”)			
TCHC Board Report to Establish Subsidiary/ Enterprise/Investment	TCHC:C2010-24		
Original Rationale for Creation/Separate Corporate Existence	TCHC would be in a better position to manage the risks as a member since participation in the joint venture and the leasing arrangements allows TCHC to become more involved in the project should the need arise. The nature of TCHC’s involvement in this project is restricted to a long-term 50-year ground lease.		
Term of Existence (short-term/defined, long-term/ongoing)	Long term. The risks and rewards of the Entity have effectively been transferred given the long-term land lease at a nominal amount.

7. 2001064 Ontario Inc.

Overview of Subsidiary/Enterprise/Investment

	<p>2001064 Ontario Inc. (“2001064”)</p>
<p>Purpose of Subsidiary/Enterprise/Investment</p>	<p>2001064 is a nominee corporation established to act as trustee to hold legal title to the commercial portion of a commercial/residential complex at 112 Elizabeth Street upon the unwinding of the Chestnut-Elizabeth joint venture.</p> <p>The residential portion of the property is owned by TCHC. The purpose of separate ownership is to maintain severance and permit separate independent transfers and mortgaging of the commercial portion of the property.</p>

2001064 Ontario Inc. ("2001064")			
Ownership	100% TCHC		
Jurisdiction	<i>Business Corporations Act</i> (Ontario)		
Incorporation Number	2001064		
Incorporation Date	January 22, 2001		
Incorporation Document	Articles of Incorporation		
By-Laws	By-Law No. 1		
TCHC Board Report to Establish Subsidiary	THC:2073		
Original Rationale for Creation/Separate Corporate Existence	The severance and easement resulting from the unwinding of the Chestnut–Elizabeth joint venture could not be effected if one corporation (TCHC) held title to both properties (residential and commercial).		
Term of existence (short-term/defined, long-term/ongoing)	Long term/ongoing. Maintaining separate existence allows for a more efficient sale if TCHC would sell the commercial portion.

Toronto Affordable Housing Fund (“TAHF”)			
Original Rationale for Creation/Separate Corporate Existence	A separate entity was created to insulate the parent company from liability for the activities conducted by TAHF.		
Term of Existence (short-term/defined, long-term/ongoing)	Long term as the entity holds numerous mortgages (“boost loans”) that would be costly to transfer to TCHC. Also, TCHC must relinquish the mortgages back to the Shareholder on April 30, 2029. Thus containing all activities in the subsidiary is deemed desirable.

8. Toronto Community Housing Enterprise Inc.

Joint venture/partnerships:

- a. Regent Park Energy Inc.

Overview of Subsidiary/Enterprise/Investment

	Toronto Community Housing Enterprise Inc. (“TCHEI”)	
Purpose of Subsidiary/Enterprise/Investment	<p>Originally, a holding company for Toronto Community Housing Corporation’s (“TCHC”) 60% equity interest in the Regent Park Community Energy System (“Regent Park CES”) Joint Venture with Corix Utilities Inc. (“Corix”). The Joint Venture with Corix dissolved.</p> <p>Now, TCHEI is a holding company that owns 100% equity interest in the Regent Park CES.</p>	
Ownership	100% TCHC	
Jurisdiction	<i>Business Corporations Act (Ontario)</i>	
Incorporation Number	2187799	
Incorporation Date	October 16, 2008	
Incorporation Document	Articles of Incorporation	
By-Laws	By-Law No. 1	
TCHC Board Report to Establish Subsidiary/Enterprise/Investment	TCHC:C2008-115	
Original Rationale for Creation/Separate Corporate Existence	As per TCHC:C2008-115: It is proposed that a new subsidiary, rather than TCHC, hold 60% interest in the Regent Park CES Campus Joint Venture. This is a common method used to insulate a parent corporation from potential liability as a direct holder of the equity interest.	
Term of existence (short-term/defined, long-term/ongoing)	Defined. TCHEI is proposed to be amalgamated with RPEI. TCHC will continue to evaluate the strategic options of the merged TCHEI and RPEI entity.

	Regent Park Energy Inc. (“RPEI”)
Purpose of Subsidiary/Enterprise/Investment	<p>Originally a joint venture with Corix Utilities Inc. (“Corix”) for the development and management of the Regent Park CES at Regent Park.</p> <p>Now, TCHEI holds 100% of RPEI.</p> <p>RPEI owns and operates a district energy system in the Regent Park neighbourhood; this system was built as part of the Regent Park redevelopment process. The district energy system is comprised of the following major components:</p> <ol style="list-style-type: none"> 1. Central Plant: equipment to produce heating and cooling (e.g. boilers, chillers, piping, etc.). 2. Piping: Pipes to transmit the heating and cooling to the Energy Transfer Stations (“ETS”) rooms inside customer buildings. 3. ETS: Energy Transfer Stations. 4. Campus Electric: Small electricity distribution system (“micro-grid”) that distributes grid electricity to a number of TCHC buildings.
Ownership	<p>As of January 4, 2012: 100% TCHEI (TCHC:C2011-92)</p> <p>Previously: 60% TCHEI & 40% Corix</p>
